Cast On Clarifications and Updates

ACCESSORIES 2002 (MAILED WITH FALL 2002 TO MEMBERS ONLY) - SWEETHEART OF A PURSE, page 16 – note to those who end up with an inverted triangle instead of a heart shape

The instructions are correct as written. The way the heart is shaped uses short rows, so not all sts are used on all rows, which explains why the gauge of 6 sts does not relate in finished size to the 81 sts you first cast on. Give it another try.

Also, note correction regarding the underlined area:

Special Abbreviations: S2kp2: Sl 2 sts one at a time knitwise, k1, pass 2 slipped sts over st knit st.

It should indicate that you need to pass the 2 slipped sts over the one st that was just knit.
